Automatic Banding Machine for Soap

Banded Soaps with perfect eye-mark registration

- Automatic Collation & Banding with tape
- Linkability to wrapping machine
- Speeds at 200+ soaps/min.
- Side Tapes for multiple soap promo packs
- Adjustable Promo pack size (2-5 soaps/pack)
- Easy soap size change
- Minimal Adhesive tape consumption
- PLC, HMI (Human Machine Interface) and Variable Speed Drive making it operator-friendly

Khosla Machines are the leading manufacturers of packaging machines for the soap industry in the country for 25 years.

As the Indian retail market moves towards the culture of big shopping malls, banding ensures higher turnover, better recall, and better brand awareness.

ABM1100 ensures better productivity, better branding, and higher profits.

ABM100 is a stand-alone machine that can be easily wheeled-in to align with the discharge conveyor of a wrapping machine to automatically collate, and apply side tape to produce multiple soap promo packs.

ABM1100 Delivers

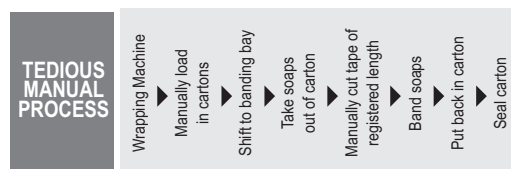

- 200+ soap cakes in collation of 2,3 4 or 5
- Can easily change collation number
- Side-banding with branded BOPP tape
